1984 Bulletin Author Index

Altcin, Pierre-Claude; Pinsonneault, Philippe; and Roy, Della M.
Physical and chemical characterization of condensed silica fumes. (12) 1487

Alarcon Navarro, J. See Escribano Lopez, P.

Alexander, J. H.
Annual ceramic mineral resources review—lithium. (5) 681

Anderson, D. W. See Edwards, George H.

Arayaphong, Dang; McLaren, Malcolm G.; and Phelps, Girard W.
Role of sub-sieve mica in ceramic clays. (9) 1181

Ault, Neil N. See Perkins, Richard C.

Bahen, Larry E. See Palmer, Brad J. F.

Bakker, Wate T.; Greenberg, Sherman; and Trondt, M.
Refractory practice in slagging gasifiers. (7) 870

Bates, J. Lambert See Marchant, David D.

Bauer, Richard J.
Annual ceramic mineral resources review—arsenic. (5) 669

Baumgartner, H. Robert
Subcritical crack velocities in titanium diboride under simulated Hall-Heroult cell conditions. (9) 1172

Bentur, Arnon; and Grinberg, Tamara
Modification of the cementing properties of oil shale ash. (2) 290

Besenicar, Spomenka See Drofenik, Miha

Bieler, Barrie H.; and Bunting, John A.
Batch-free time vs crucible volume and soda type in glass-melting. (11) 1405

Blendell, John E.; Bowen, H. Kent; and Coble, Robert L.
High-purity alumina by controlled precipitation from aluminum sulfate solutions. (6) 797

Bollard, Roger J. H.
Characterization requirements in modelling structural ceramics. (2) 253

Bond, Walter D. See Lauf, Robert J.

Bowen, H. Kent See Blendell, John E.

Boyer, Charles B.; and Mahon, Robert D.
Emerging technology plus control technology equal hazard control and savings. (12) 1517

Bradt, Richard C. See Koval, Edward J.; Semler, Charles E.

Brant, David G.
Annual ceramic mineral resources review—limestone and dolomite. (5) 680

Bray, Donald J.; Smyth, Jay R.; and McGee, Thomas D.
Effect of cement content on the creep of a 90+% Al_2O_3 refractory concrete. (2) 287

Brezny, Bohus; and Engel, Ruth
Evaluation of zircon brick for steel ladle slag lines. (7) 880

Brown, Jesse J., Jr.
Annual ceramic mineral resources review—kyanite. (5) 677; See also Hipps, DeForrest L.

Bunting, John A. See Bieler, Barrie H.

Burk, Michael J. See Lu, Grant

Burwinkel, L. G., Jr.
Annual ceramic mineral resources review—silica. (5) 684

Celli, Adelio See Palmer, Brad J. F.

Chambers, Robert L. See McMillin, James A.

Chien, Yung-tsen; Lee, Tain-fei; and Pan, Hong-chih
Effect of Cr_2O_3 on creep resistance of high-alumina bauxite refractories. (7) 915

Chiou, Bi-shiou; and Vest, Robert W.
Glasses for high-temperature thick-film systems. (6) 816; High-temperature thick-film dielectrics. (6) 811

Clinton, Jean M.; and Coffeen, William W.
Low melting glasses in the system B_2O_3-ZnO-CaO-P_2O_5. (11) 1401

Coble, Robert L. See Blendell, John E.

Coffeen, William W. See Clinton, Jean M.

Corbin, Normand D. See Quinn, George D.

Crayton, Philip H.; and Price, James J.
Prediction of effective isothermal hot-pressing temperature. (5) 715

Cross, Leslie E.
Dielectric, piezoelectric, and ferroelectric components. (4) 586

Crowley, Michael S.; Gormley, Richard A.; and Linck, Frederick W.
Field testing of erosion-resistant refractories. (4) 628

Cunningham, J. L.
Annual ceramic mineral resources review—bauxite. (5) 673

DasGupta, Rathindra; Nayebhashemi, A.; and Iqbal, N.
Influence of blast-furnace dust and nepheline syenite on the stability of dicalcium silicate. (7) 894

Deelo, Michael L.
Annual ceramic mineral resources review—zinc oxide. (5) 689

Drofenik, Miha; Besenicar, Spomenka; and Kolar, Drago
Influence of BaO additions on the microstructure and magnetic properties of Co-Ni, Zn ferrites. (5) 699

Drofenik, Miha; Popovic, Arkadij; and Kolar, Drago
Grain growth and related effects in doped $BaTiO_3$. (5) 702

Druckenbrodt, Wolf-Guenther See Roepenack, Horst

Duffy, Peter L. See Ritter, John E.

Edwards, George H.; and Anderson, D. W.
Strategic risk analysis of raw materials in the glass industry. (11) 1391

Elmer, Thomas H.
Abraded and unabraded strength of partially leached glass rods. (5) 711

Engel, Ruth See Brezny, Bohus

Escribano Lopez, P.; Guillem Monzonis, C.; and Alarcon Navarro, J.
Cr-SnO_2-CaO-SiO_2-based ceramic pigments. (12) 1492

Everts, J. A. See MacZura, George

Faber, Katherine T.
Ceramic educational council statistics, 1983–84. (8) 974

Fabey, John P. See Ritter, John E.

Fay, Gordon C.
Are we conserving as much fuel and energy as we profitably could? (11) 1389; Recent advances in tunnel kiln ware cooling. (4) 610

Ferber, Mattison K.; and Tennery, Victor J.
Behavior of tubular ceramic heat exchanger materials in basic coal ash from coal-oil-mixture combustion. (7) 898

Finnie, Iain See Nielsen, Charles A.

Fisher, Chester F. See Lu, Grant

Fisher, Greg
Advanced ceramics and composites shortfalls surface at CMS workshop [report of an open discussion]. (2) 247; Advanced ceramics continue progress to products. (2) 249; Background investigations help gain support for research. (12) 1461; Composites—engineering the ultimate material. (3) 360; Microelectronic devices—courtesy of ceramic capabilities. (6) 780; New technologies bolster electronic ceramic economics. (4) 569; U.S. ceramic mineral production rebounds with industry. (5) 666; US universities provide research developments—require massive support. (8) 962

Freiman, Stephen W.; Gonzalez, Armando C.; and Wiederhorn, Sheldon M.
Lifetime predictions for solar glasses. (4) 597

Gardner, Timothy J.; and Messing, Gary L.
Preparation of MgO powder by evaporative decomposition of solutions. (12) 1498

Glasgow, Thomas K. See Herbell, Thomas P.

Goldman, Alex
Understanding ferrites. (4) 582

Goldman, Don S.
Mass spectrometric analysis of small bubbles in glass. (4) 600

Gonzalez, Armando C. See Freiman, Stephen W.

Gordon, Ronald S. See McEntire, Bryan J.

Gromley, Richard A. See Crowley, Michael S.

Green, David J.; and Metcalf, Milan G.
Properties of slip-cast transformation-toughened β''-Al_2O_3/ZrO_2 composites. (6) 803

Greenberg, Sherman See Bakker, Wate T.

Grell, Peter See Mitomo, Mamoru

Greskovich, Charles; Pasco, Wayne D.; and Quinn, George D.
Thermomechanical properties of a new composition of sintered Si_3N_4. (9) 1165

Griffin, Curtis W. See Marchant, David D.

Grinberg, Tamara See Bentur, Arnon

Guha, Jayanta K.
Application of robotics in inspection and manufacture of ceramic products. (9) 1179

Guillem Monzonis, C. See Escribano Lopez, P.

Guttmann, Paul F.
Annual ceramic mineral resources review—boron. (5) 673

Harris, Lawrence A. See Wei, George E.

Hartsock, Dale L.; and McLean, Arthur F.
What the designer with ceramics needs. (2) 266

Hathaway, A. J.; and Munro, James B.
Annual ceramic mineral resources review—titanium products. (5) 688; Annual ceramic mineral resources review—zircon and zirconia. (5) 690

Haun, Michael J. See Shrout, Thomas R.

Herbell, Thomas P.; Glasgow, Thomas K.; and Orth, Norman W.
Demonstration of a silicon nitride attrition mill for production of fine pure Si and Si_3N_4 powders. (9) 1176

Hicks, James C.
Annual ceramic mineral resources review—magnesite and MgO. (5) 682

Hipps, DeForrest L.; and Brown, Jesse J., Jr.
Internal pressure measurements for control of explosive spalling in refractory castables. (7) 905

Hoffman, Lewis C.
Overview of thick-film hybrid materials. (4) 572

Ikeda, Masakazu See Sugita, Kiyoshi

Inoue, Satoru; Yamane, Masayuki; and Serizawa, Takashi
Apparatus for precise measurement of glass homogeneity by Shelyubskii's method. (11) 1412

Iqbal, N. See DasGupta, Rathindra

Izumi, Fujio See Mitomo, Mamoru

Johnson, Randall L.
Annual ceramic mineral resources review—talc. (5) 687

Kadono, Atsuro
Japan's refractory industry—trends. (9) 1124

Kamenicky, Vincent See Schlie, Theodore

Karplus, Henry B. See Kupperman, David S.

Kenan, Wilfred M.
Annual ceramic mineral resources review—graphite. (5) 676

Kennedy, C. R. See Wei, George C.

Kilbourn, Barry T.
Annual ceramic mineral resources review—lanthanides and yttrium. (5) 678

Kingery, W. D. See Vandiver, Pamela B.

Kiyonaga, Kazuo See McMillin, James A.

Koizumi, Mitsue; Okamoto, Taira; and Shimada, Masahiko
Diffusion-reaction bonding of ceramics to ceramics and to metals under pressure. (9) 1171

Koizumi, Mitsue; and Yanagida, Hiroaki
Current major ceramic research programs under the auspices of the Japanese government. (9) 1133

Kolar, Drago See Drofenik, Miha

Komeya, Katsutoshi
Development of nitrogen ceramics. (9) 1158

Koval, Edward J.; Messing, Gary L.; and Bradt, Richard C.
Effects of raw material properties and Fe_2O_3 additions on the sintering of dolomites. (2) 274

Kreidl, Norbert
State of glass science. (11) 1394

Kupperman, David S.; and Karplus, Henry B.
Ultrasonic wave propagation characteristics of green ceramics. (12) 1505

Kuwano, Yukinori
Integrated-type amorphous silicon solar cell. (9) 1153

Lange, Bruce A.
Consolidation strength of compacted portland cement powder. (6) 788

Lankard, David R.
Factors affecting selection and performance of steel-fiber-reinforced monolithic refractories. (7) 919

Lauf, Robert J.; and Bond, Walter D.
Fabrication of high-field zinc oxide varistors by sol-gel processing. (2) 278

Lee, Soo-Young See Sacks, Michael D.

Lee, Tain-fei See Chien, Yung-tsen

Lehman, Richard L.; Weinstein, Jerry G.; and Phelps, Girard W.
Reformulation of whiteware bodies using characterization and linear programming methods and techniques. (8) 1039

Linck, Frederick W. See Crowley, Michael S.

Litvan, Gerard G.
Determination of the firing temperature of clay brick. (4) 617

Lu, Grant; Fisher, Chester F.; and Burk, Michael J.
Characterization of crystallites in a fluorozirconate glass. (11) 1416

MacDowell, John F.
Microwave heating of nepheline glass-ceramics. (2) 282

MacZura, George; Everts, J. A.; and McLeod, C. T.
Annual ceramic mineral resources review—alumina. (5) 668

Mahon, Robert D. See Boyer, Charles B.

Marchant, David D.; Griffin, Curtis W.; and Bates, J. Lambert
Electrochemical corrosion of iron-magnesium-aluminum spinel in molten potassium salts and coal slag. (4) 619

Marshall, Robert W. See McMann, Fred C.

Matsuyama, Iwao; Susa, Kenzo; and Satoh, Shin
Syntheses of high-purity silica glass by the sol-gel method. (11) 1408

Maupin, Addison
Annual ceramic mineral resources review—andalusite. (5) 669

Mazdiyasni, K. S.
Fine particle perovskite processing. (4) 591

McCauley, James W.
Role of characterization in emerging high-performance ceramic materials. (2) 263; See also Quinn, George D.

McClurg, John
Annual ceramic mineral resources review—fluorspar. (5) 675

McEntire, Bryan J.; Miller, Gerald R.; and Gordon, Ronald S.
Sintering of β''-alumina electrolyte tubing. (6) 792

McGee, Thomas D. See Bray, Donald J.

McLaren, Malcolm G. See Arayaphong, Dang

McLean, Arthur F. See Hartsock, Dale L.

McLeod, C. T. See MacZura, George

McMann, Fred C.; and Marshall, Robert W.
Waste-heat steam generation is economically viable in ceramics. (3) 355

McMillin, James A.; Kiyonaga, Kazuo; and Chambers, Robert L.
Improved brick quality through oxygen injection. (8) 1035

Mehta, Provindar K.
U.S. cement industry—an overview. (6) 779

Melling, Peter J.
Alternative methods of preparing chalcogenide glasses. (11) 1427

Messing, Gary L. See Gardner, Timothy J.; Koval, Edward J.

Metcalf, Milan G. See Green, David J.

Michell, Adolph L.
Fabrication and performance evaluation of a titania automotive exhaust gas sensor. (5) 694

Mikami, Harry
Annual ceramic mineral resources review—chromite. (5) 674

Miller, Gerald R. See McEntire, Bryan J.

Mitomo, Mamoru; Izumi, Fujio; and Greil, Peter
Thermal expansion of α-sialon ceramics. (5) 730

Miyao, Kunihiko See Uchikawa, Fusaoki

Morrow, Gary D. See Russell, Robert O.

Munro, James B. See Hathaway, A. J.

Mussler, Bernhard H.; and Shafer, Merrill W.
Preparation and properties of mullite-cordierite composites. (5) 705

Nash, David L.; Simpson, Jay R.; and Wood, Darwin L.
Quantitative emission spectrographic determination of Ge in MCVD deposits. (5) 726

Nayebhashemi, A. See DasGupta, Rathindra

Nelson, Frederick J. See Poolos, W. Alan

Nielsen, Charles A.; and Finnie, Iain
Tensile fracture of glass capillaries under controlled inner and outer wall environments. (11) 1422

Nihara, Koichi
Mechanical properties of chemically vapor deposited nonoxide ceramics. (9) 1160

Nordyke, John S.
Annual ceramic mineral resources review—lead products. (5) 679

Okamoto, Taira See Koizumi, Mitsue

Okazaki, Kiyoshi
Mechanical behavior of ferroelectric ceramics. (9) 1150

Ortelli, G.; and Vincenzini, Pietro
Reduction of efflorescence in brick through addition of ceramic sludges. (8) 1025

Orth, Norman W. See Herbell, Thomas P.

Padfield, Ralph C.
Refractories for blast furnace troughs and runner systems. (5) 718

Palmer, Brad J. F.; Bahen, Larry E.; and Celli, Adelio
Thoria-urania powders prepared via bulk microwave denitration. (8) 1030

Pan, Hong-chih See Chien, Yung-tsen

Pasco, Wayne D. See Greskovich, Charles

Pentecost, Joseph L. See Skalny, Jan P.

Perkins, Richard C.; and Ault, Neil N.
Annual ceramic mineral resources review—silicon carbide and silicon nitride. (5) 684

Phelps, Girard W. See Arayaphong, Dang; Lehman, Richard L.

Philibert, Jean See Solomon, Alvin A.

Pinsonneault, Philippe See Aitcin, Pierre-Claude
Poolos, W. Alan; and Nelson, Frederick J.
Analysis of regenerator energy performance with the Heat Balance computer model. (11) 1419
Popovic, Arkadij See Drofenik, Miha
Price, James J. See Crayton, Philip H.
Prindle, William R.
Report on ICG meeting in China. (12) 1457
Quinn, George D. See Greskovich, Charles
Quinn, George D.; Corbin, Normand D.; and McCauley, James W.
Thermomechanical properties of aluminum oxynitride spinel. (5) 723
Raleigh, Charles W.
Annual ceramic mineral resources review—sodium carbonate (soda ash). (5) 685
Rhodes, Warren W. See Yan, Man F.
Rice, Roy W.
Capabilities and design issues for emerging tough ceramics. (2) 256
Rieger, Konrad
Annual ceramic mineral resources review—wollastonite. (5) 689
Rieger, Ronald
Annual ceramic mineral resources review—pyrophyllite. (5) 682
Ritter, John E.; Fahey, John P.; and Duffy, Peter L.
Slow-stressing-rate testing of ceramic materials. (12) 1516
Robinson, Gilbert C.
Relationship between pore structure and durability of brick. (2) 295
Roepenack, Horst; Schneider, Volker W.; and Druckenbrodt, Wolf-Guenther
Experience with the ammonium uranyl plutonyl carbonate coconversion process for mixed-oxide fuel fabrication. (8) 1051
Roy, Della M. See Aitcin, Pierre-Claude
Roy, Neill R. See Roy, Rustum
Roy, Rustum; and Roy, Neill R.
Institutional sources of ceramics research in the US. (12) 1465
Ruh, Edwin
Refractories industry today—Japan and the United States. (9) 1140; See also Skalny, Jan P.
Russell, Robert O.; and Morrow, Gary D.
Sonic velocity quality control of steel plant refractories. (7) 911
Sacks, Michael D.
Properties of silicon suspensions and cast bodies. (12) 1510
Sacks, Michael D.; Tseng, Tseung-yuen; and Lee, Soo-Young
Thermal decomposition of spherical hydrated basic aluminum sulfate. (2) 301
Sakka, Sumio
Glass science and technology in Japan. (9) 1136; Typical ceramic laboratory in Japan. (9) 1128
Satoh, Shin See Matsuyama, Iwao
Schlie, Theodore; and Kamenicky, Vincent
Competitive assessment of the US advanced ceramics industry—summary. (9) 1112
Schneider, David. F.
Annual ceramic mineral resources review—ball clay. (5) 670
Schneider, Volker W. See Roepenack, Horst
Schwartz, Bernard
Microelectronics packaging: II. (4) 577
Semler, Charles E.; and Bradt, Richard C.
Thermal shock damage [resistance] of magnesite-chrome refractories in the ribbon test. (4) 605
Serizawa, Takashi See Inoue, Satoru
Shafer, Merrill W. See Mussler, Bernhard H.
Shimada, Masahiko See Koizumi, Mitsue
Shimamoto, Kozo See Uchikawa, Fusaoki
Shrout, Thomas R.; Swartz, Scott L.; and Haun, Michael J.
Dielectric properties in the $Pb(Fe_{1/2}Nb_{1/2})O_3$-$Pb(Ni_{1/3}Nb_{2/3})O_3$ solid-solution system. (6) 808
Simpson, Jay R. See Nash, David L.
Skalny, Jan P.
Challenges for cement research—are we ready? (9) 1138
Skalny, Jan P.; Pentecost, Joseph L.; and Ruh, Edwin
Japanese cement industry. (9) 1127
Slyh, John A.
Twenty-year moisture expansion of quarry tile. (12) 1495
Smyth, Jay R. See Bray, Donald J.
Solomon, Alvin A.; and Philibert, Jean
New technique for studying creep and rupture of high-purity CoO scales in tension. (8) 1021
Soroka, I.
Effect of phosphogypsum on properties of portland cement. (12) 1502
Spriggs, Richard M.
American Ceramic Society delegation visits Japan. (9) 1117
Stack, Charles E.
Annual ceramic mineral resources review—refractory clays. (5) 683
Sugita, Kiyoshi; Ikeda, Masakazu; and Tamura, Shinichi
Microstructural improvements in slide gate plates for steel pouring. (7) 886
Sump, Cord H.
Improved refractory retention on substrates. (7) 925
Susa, Kenzo See Matsuyama, Iwao
Swartz, Scott L. See Shrout, Thomas R.
Talbott, Paul T.
Prospecting for clay. (8) 1047
Tamura, Shinichi See Sugita, Kiyoshi
Tennery, Victor J. See Ferber, Mattison K.
Trondi, M. See Bakker, Wate T.
Tseng, Tseung-yuen See Sacks, Michael D.
Uchikawa, Fusaoki; Miyao, Kunihiko; and Shimamoto, Kozo
Surface OH concentration and electrical resistance of humidity-sensitive silicone composite films. (8) 1043
Uchikawa, Hiroshi
Role of free lime in early hydration of alite—retarder or accelerator. (9) 1143
Vandiver, Pamela B.; and Kingery, W. D.
Composition and structure of Chinese Song Dynasty celadon glazes from Longquan. (4) 612
Vest, Robert W. See Chiou, Bi-shiou
Vincenzini, Pietro See Ortelli, G.
Wei, George Chia-Tsing; and White, Calvin L.
High-temperature behavior of pressureless-sintered SiC in a steel soaking pit environment. (7) 890
Wei, George C.; Kennedy, C. R.; and Harris, Lawrence A.
Synthesis of sinterable SiC powders by carbothermic reduction of gel-derived precursors and pyrolysis of polycarbosilane. (8) 1054
Weinstein, Jerry G. See Lehman, Richard L.
White, Calvin L. See Wei, George Chia-Tsing
Wiederhorn, Sheldon M. See Freiman, Stephen W.
Wood, Darwin L. See Nash, David L.
Wooh, Edward
Annual ceramic mineral resources review—barium carbonate. (5) 671
Yamane, Masayuki See Inoue, Satoru
Yan, Man F.; and Rhodes, Warren W.
Efficient process for volume production of TiO_2 varistor powder. (12) 1484
Yanagida, Hiroaki
Materials design in functional ceramics. (9) 1135; See also Koizumi, Mitsue

Papers, Notes, and Features Index

Additives,
Fe_2O_3, effect on sintering of dolomites (2) 274
sludges, reduction of efflorescence in brick through (8) 1025
Alite,
hydration, early, role of free lime (9) 1143
Aluminum,
AlN, development of (9) 1158

Films,
composite, humidity-sensitive silicone, surface OH concentration and electrical resistance (8) 1043
dielectric, high-temp. (6) 811
systems, high-temp., glasses for (6) 816
thick- hybrid materials, overview of (4) 572
Firing,
temp., of clay brick, determination of (4) 617

Fracture,
tensile, of glass capillaries (11) 1422
toughness, of ferroelectric ceramics (9) 1150
Fuels,
nuclear, (Th, U)O_2 pellets, prepared via bulk microwave denitration (8) 1030
ammonium uranyl plutonyl carbonate (8) 1051
Furnaces,
glassmelting, analysis of regenerator energy performance with heat balance computer model (11) 1419
Gasification,
slag, refractory practice (7) 870
Glass,
Ca aluminate, Raman spectroscopy of (5) 726
SiO_2, high-purity, synthesis by sol-gel method (11) 1408
bubbles in, small, mass spectrometric analysis (4) 600
capillaries, tensile fracture of (11) 1422
chalcogenide, alternative methods of preparing (11) 1427
films, high-temp. (6) 816
fluorozirconate, characterization of crystallites in (11) 1416
homogeneity, apparatus for measurement by Shelybskii's method (11) 1412
low-melting, in system B_2O_3-ZnO-CaO-P_2O_5 (11) 1401
-melting, batch-free time vs crucible colume and soda type (11) 1405
rods, partially leached, abraded and unbraded strength (5) 711
science, state of (11) 1394
science and technology, in Japan (9) 1136
silicate, deposits, emission spectrographic determination of Ge in (5) 726
solar, lifetime predictions for (4) 597
Glass-ceramics,
nepheline, microwave heating of (2) 282
Glass industry,
furnaces, analysis of regenerator energy performance (11) 1419
raw materials, strategic rick analysis of (11) 1391
Glazes,
celadon, Chinese Song Dynasty from Longquan, composition and structure (4) 612
Grain growth,
in $BaTiO_3$, doped (5) 702
Grinding (comminution),
ball mill, of Si and Si_3N_4 powders (9) 1176
Gypsum,
phospho-, effect on properties of portland cement (12) 1502
Heat,
engines, automotive, future of advanced ceramics (2) 249
exchanger, tubular ceramic, behavior in basic coal ash (7) 898
waste, steam generation with (3) 355
Heating,
microwave, of nepheline glass-ceramics (2) 282
Homogeneity,
glass, apparatus for measurement by Shelyubskii's method (11) 1412
Hydration,
early, of alite, role of free lime (9) 1143
Kilns,
brick, quality improved through O injection (8) 1035
tunnel, ware cooling, recent advances (4) 610
Lime,
free, role in early hydration of alite (9) 1143
Magnesium oxide,
powder, preparation by evaporative decomposition of solutions (12) 1498
Magnetic properties,
of ferrites, Co-Ni, Zn, effect of BaO additions (5) 699
Materials,
ceramic, slow-stressing-rate testing of (12) 1516
design, in functional ceramics (9) 1135
hybrid, thick-film, overview of (4) 572
Materials for Engineering,
Si_3N_4 and AlN, development of (9) 1158
Si_3N_4, SiC and B_4C, CVD, mechanical properties (9) 1160
advanced ceramics, U. S., competitive assessment (9) 1112
automotive, future of (2) 249
capabilities and design issues (2) 256
characterization, role of (2) 263
composites, β''-Al_2O_3/ZrO_2, slip-cast transformation-toughened, properties of (6) 803
classification of (3) 360
designer's functions (2) 266
developments in, (Japanese) (9) 1135
modeling, characterization requirements (2) 253
for semiconductors (6) 780
shortfalls, discussed at CMS workshop (2) 247
Materials, Raw,
Al_2O_3 (5) 668
As (5) 669
$BaCO_3$ (5) 671
Li (5) 681
Pb products (5) 679
SiC and Si_3N_4 (5) 684
SiO_2 (5) 684
Ti products (5) 688
ZnO (5) 689
andalusite (5) 669
ash, oil shale, modification of cementing properties (2) 290
ball clay (5) 670
bauxite (5) 673
boron (5) 673
chromite (5) 674
clay, prospecting for (8) 1047
fluorspar (5) 675
fumes, condensed SiO_2, physicochemical properties (12) 1487
in glass industry, strategic risk analysis (11) 1391
graphite (5) 676
kyanite (5) 677
lanthanides and Y (5) 678
limestone and dolomite (5) 680
magnesite and MgO (5) 682
mineral production, U.S., rebounds with industry (5) 666
pyrophyllite (5) 682
refractory clays (5) 683
soda ash (5) 685
talc (5) 687
for whiteware, reformulation technique for (8) 1039
wollastonite (5) 689
zircon and ZrO_2 (5) 690
Measurement,
Shelyubskii, of glass homogeneity, apparatus for (11) 1412
Mechanical properties,
of Si_3N_4, SiC and B_4C, CVD (9) 1160
durability, of brick, relation to pore structure (2) 295
of ferroelectric ceramics (9) 1150
of new composition of sintered Si_3N_4 (9) 1165
of nonoxide ceramics, CVD (9) 1160
thermo-, of Al oxynitride spinel (5) 723
Melting,
glass-, batch-free time vs crucible volume and soda type (11) 1405
Metals,
bonding ceramics to, by diffusion-reaction under pressure (9) 1171
Mica,
sub-sieve, role in ceramic clays (9) 1181
Minerals,
fluorspar, (5) 675
production, U.S., rebounds with industry (5) 666
Models,
computer, heat balance, analysis of regenerator energy performance with (11) 1419
mathematical, of engineering materials (2) 253
Moisture,
expansion, of quarry tile, over twenty-year period (12) 1495
Mullite,
-cordierite composites, preparation and properties (5) 705
Nepheline,
glass-ceramics, microwave heating of (2) 282
Nitrogen,
ceramics, development of (9) 1158
Nuclear materials,
ammonium uranyl plutonyl carbonate, fuel fabrication, experience with (8) 1051
powders, (Th,U)O_2, prepared via bulk microwave denitration (8) 1030
Oxygen,
injection, improved brick quality through (8) 1035
Packaging,
microelectronics (4) 577
Particles,
perovskite, processing (4) 591
Perovskites,
particles, fine, processing (4) 591
Physicochemical properties,
of cements, portland, effect of phosphogypsum on (12) 1502
of fumes, condensed SiO_2 (12) 1487
of suspensions and cast bodies, Si (12) 1510
Piezoelectric materials,
(4) 586
Pigments,
ceramic, Cr-SnO_2-CaO-SiO_2-based (12) 1492
Powders,
MgO, preparation by evaporative decomposition of solutions (12) 1498
Si and Si_3N_4, ball milling of (9) 1176
SiC, sinterable, synthesis of (8) 1054
(Th, U)O_2, prepared via bulk microwave denitration (8) 1030
TiO_2, varistor, process for volume production (12) 1484
cement, portland, compacted, consolidation strength of (6) 788
Precipitation,
controlled, high-purity Al_2O_3 from Al sulfate solutions by (6) 797
Pressing,
hot isostatic, hazard control planning (12) 1517
hot-, isothermal, prediction of effective temp. (5) 715
Quality control,
of refractories, steelmaking, using sonic velocity (7) 911
Refractories,
SiC, sintered, high-temp. behavior in steel soaking environment (7) 890
bauxite, effect of Cr_2O_3 on creep resistance (7) 915
castables, pressure measurements to control explosive spalling (7) 905
concrete, 90+% Al_2O_3, effect of cement content on creep (2) 287
erosion-resistant, field testing of (4) 628
heat exchanger, tubular, behavior in basic coal ash (7) 898
magnesite-chrome, thermal shock resistance in ribbon test (4) 605
monolithic, steel-fiber-reinforced, selection and performance of (7) 919
plates, slide gate, for steel pouring, microstructural improvements in (7) 886
practice, in slagging gasifiers (7) 870; correction (9) 1079
spinel, Fe-Mg-Al, electrochemical corrosion in molten K salts and coal slag (4) 619
steelmaking, sonic velocity quality control of (7) 911
on substrates, improved retention of (7) 925
trends (in Japan) (9) 1124
Refractories, blast furnace,
for troughs and runners (5) 718
Refractories, brick,
zircon, for steel ladle slag lines, evaluation of (7) 880
Refractories industry,
in Japan, trends of (9) 1124
in Japan and U.S. (9) 1140
quality control, using sonic velocity, for steelmaking products (7) 911
Research,
background studies gain support for (12) 1461
cement, challenges for (9) 1138
ceramic, in Japan, typical lab (9) 1128
programs under auspices of Japanese Government (9) 1133
in U.S., institutional sources of (12) 1465
University research report (8) 966, (12) 1469
U.S. universities provide developments, require massive support (8) 962
Resistance, electrical,
of films, humidity-sensitive silicone (8) 1043
Resistors, electrical,
varistors, TiO_2 powder, process for volume production (12) 1484
ZnO, fabrication by sol-gel process (2) 278
Rupture,
of CoO, high purity, new technique for studying (8) 1021
Safety,
hazard control planning, in hot isostatic pressing (12) 1517
Science,
glass, in Japan (9) 1136
state of (11) 1394
Semiconductors,
materials, new (6) 780
Sensors,
exhaust gas, TiO_2, fabrication and performance (5) 694
Shock resistance,
thermal, of magnesite-chrome refractories, in ribbon test (4) 605
Sialons,
thermal expansion of (5) 730
Silicates,
C_2S, effect of blast-furnace dust and nepheline syenite on stability (7) 894
Silicon,
powders, ball milling of (9) 1176
solar cell, integrated type amorphous (9) 1153
suspensions and cast bodies, properties of (12) 1510
Silicon carbide,
powders, sinterable, synthesis of (8) 1054
sintered, behavior in steel soaking environment (7) 890
Silicon dioxide,
fumes, condensed, physical and chemical characterization (12) 1487
glass, high-purity, synthesis by sol-gel method (11) 1408
Silicon nitride,
development of, (9) 1158
powders, ball milling of (9) 1176
sintered, new composition, thermomechanical properties (9) 1165
Silicones,
films, humidity-sensitive, surface OH concentration and electrical resistance of (8) 1043
Sintering,
β''-Al_2O_3, electrolyte tubing (6) 792
dolomites, effects of raw material properties and Fe_2O_3 additions (2) 274
Slags,
gasifiers, refractory practice in (7) 870; correction (9) 1079
Solar collectors,
Si, integrated type amorphous (9) 1153
Sound,
ultra-, wave propagation in unfired ceramics (12) 1505
Spectrography,
emission, determination of GeO_2 in silicate glass deposits (5) 726
Spectroscopy,
Raman, of Ca aluminate glasses and crystals (5) 726
Spinels,
Al oxynitride, thermomechanical properties (5) 723
Fe-Mg-Al, corrosion in molten K salts and coal slag (4) 619
Stability,
of C_2S, effect of blast-furnace dust and nepheline syenite (7) 894
Steam,
generation, waste-heat, is economically viable (3) 355
Strength,
abraded and unbraded, of partially leached glass rods (5) 711
consolidation, of compacted portland cement powder (6) 788
fracture, of ceramic materials, slow-stressing-rate testing (12) 1516
of materials, engineering (2) 256
Structure,
of glazes, Chinese Song Dynasty celadon (4) 612
pore, of Si_3N_4 bodies, relation to particulate dispersion in Si suspensions (12) 1510
relation of durability of brick to (2) 295
Structure, micro-,
of ferrites, Co-Ni, Zn effect of BaO additions (5) 699
of plates, slide gate for steel pouring, improvements in (7) 886
Substrates,
refractories on, improved retention (7) 925
Sulfates,
Al, spherical hydrated, thermal decomposition of (2) 301
Suspensions,
Si, and cast bodies, properties of (12) 1510
Synthesis,
of glass, high-purity SiO_2 by sol-gel method (11) 1408
of powders, SiC, by reduction of precursors and pyrolysis of polycarbosilane (8) 1054
Systems,
B_2O_3-ZnO-CaO-P_2O_5, low-melting glasses in (11) 1401
solid-solution, $Pb(Fe_{1/2}Nb_{1/2})O_3$-$Pb(Ni_{1/3}Nb_{2/3})O_3$, dielectric properties (6) 808

Technology,
ceramic, background studies gain support for research (12) 1461
bolster electronic economics (4) 569
for energy conservation, in ceramic industry (11) 1389
glass, in Japan (9) 1136
state of (11) 1394
Temperature,
hot-pressing, effective isothermal, prediction of (5) 715
Testing,
field, of erosion-resistant refractories (4) 628
slow-stressing-rate, of ceramic materials (12) 1516
ultrasonic, wave propagation in green ceramics (12) 1505
Tests,
nondestructive, on engineering materials (2) 263
ribbon, thermal shock resistance of magnesite-chrome refractories in (4) 605
Thermal properties,
expansion, of α-sialon ceramics (5) 730
spalling, explosive, of refractory castables, pressure measurements to control (7) 905
Tile,
quarry, twenty-year moisture expansion of (12) 1495
Titanium,
TiB_2, under simulated Hall-Heroult cell conditions, subcritical crack velocities (9) 1172
Titanium dioxide,
powder, varistor, process for colume production (12) 1484
sensor, automotive exhaust gas, fabrication and performance (5) 694
Tubes,
electrolyte, β''-Al_2O_3, sintering of (6) 792
Velocity,
crack, in TiB_2 under Hall-Heroult cell conditions (9) 1172
Whiteware,
bodies, reformulation with linear programming techniques (8) 1039
Zinc,
varistors, fabrication by sol-gel process (2) 278
Zircon,
brick, for steel ladle slag lines, evaluation of (7) 880

NEWS INDEX

American Ceramic Society

Awards and Honors *(See also American Ceramic Society Classes, Divisions and Sections.)*
Fellows, (3) 385.
Distinguished Life Memberships, to Labino, Stoddard (3) 382.
Jeppson Medal and Award, to Cross (3) 381.
Officers, trustees installed (3) 381; installed (6) 774; listed (6) 777; nominations (10) 1232; listed (12) 1520.
Orton Lecture, Haertling to present (3) 382.
Purdy Award, to Lemaire, Bowen (3) 381.
Schwartzwalder-PACE Award, to Hauth (3) 383.

Classes
Ceramic Education Council, Bradt named Outstanding Educator (3) 382; officers (6) 778; statistics (8) 974; Roster (10) 1331; officers listed (12) 1520; Outstanding Educator nominations sought (12) 1455.
National Institute of Ceramic Engineers, Greaves-Walker Award to Stoddard (3) 383; short courses (3) 413; newsletter (4) 562, (7) 867, (9) 1097, (12) 1452; officers (6) 778; plans seminar (8) 956; Roster (10) 1333.

Divisions
Basic Science Division, Bowen named Sosman Memorial Lecturer; Annual Meeting program (3) 447; officers (6) 777; Fall Meeting Program (8) 989; officers listed (12) 1520.
Cements Division, Annual Meeting program (3) 367; officers (6) 777; officers listed (12) 1520.
Ceramic-Metal Systems Division, Annual Meeting program (3) 473; officers (6) 777; call for papers (7) 854; committees announced (8) 956; officers listed (12) 1520; Ninth Annual Conf. program, officers listed (12) 1472.
Design Division, Annual Meeting program (3) 477; officers (6) 777; officers listed (12) 1520.
Electronics Division, Annual Meeting program (3) 479; committees named (6) 762; officers (6) 777; Fall Meeting program (8) 989; ElectroCom (10) 1226; officers listed (12) 1520.
Glass Division, Annual Meeting program (3) 491; committees announced (4) 560; officers (6) 777; Fall Meeting program (9) 1104; Glass-Vues (10) 1226; Research Committee report (11) 1403; officers listed (12) 1520.
Materials & Equipment Division, Annual Meeting program (3) 505; officers (6) 777; committees announced (8) 957; Fall Meeting program (8) 980; Marquis Memorial Award to Price (8) 981; officers listed (12) 1520.
Nuclear Division, best paper award (1) 21; Annual Meeting program (3) 507; committees named (6) 762; best paper awards (6) 768; officers (6) 777; officers listed (12) 1520.
Refractories Division, Hot Line (1) 37, (3) 351, (4) 565, (5) 663, (6) 765, (7) 876, (8) 972, (9) 1093, (11) 1386, (12) 1464; Annual Meeting program (3) 515; officers (6) 777; Allen awards (10) 1223; officers listed (12) 1520.
Structural Clay Products Division, Annual Meeting program (3) 521; officers (6) 777; committees announced (8) 957; Fall Meeting program (8) 978; officers listed (12) 1520.
Whitewares Division, Annual Meeting program (3) 523; officers (6) 778; Fall Meeting program (8) 980; Marquis Memorial Award to Price (8) 981; names committees (10) 1219; officers listed (12) 1520.

Meetings *(See also American Ceramic Society Classes, Divisions, and Sections.)*
Annual Meeting, 86th, outline (2) 237; advance schedule (3) 369; arrangements (3) 367; calendar of events (3) 377; other meetings and events (3) 378; ceramographic contest rules (3) 380; spouses program (3) 393; author index (3) 394; speaking contest (3) 403; exposition preview (3) 405; short courses (3) 413; special sessions (3) 419; photos (6) 769.
Annual Meeting, 87th, call for papers (9) 1099; abstract form (9) 1101, (10) 1364.
Pacific Coast Regional Meeting, 37th Annual; call for papers (2) 273; planned (8) 956; program (8) 989.

Operations
Application for corporation membership (10) 1329.
Application for personal membership, (10) 1233.
Committees, listed (7) 864.
Constitution, changes in (2) 234.
Corporation membership directory (10) 1325.
Delegation visits Japan (9) 1117.
Election (3) 346.
Fellow membership directory (10) 1323.
Financial Review, (7) 861.
Membership Roster (10) 1235.
Museum Notes (1) 38; (3) 359.
Organization telephone directory (10) 1337.
Papers, instructions for preparation of (12) 1479.
Phase Equilibria Program, pledges made (11) 1388; contibutions announced (12) 1459.
President's Page (1) 19, (4) 557, (7) 847, (8) 953, (9) 1092, (11) 1371, (12) 1453.

Sections
Arizona Section, formed (1) 23; election (4) 561; Bates presents charter (7) 854.
Baltimore-Washington Section, meeting (3) 348.
Canton-Alliance Section, established (10) 1220.
Central Ohio Section, Cramer Award (2) 229; meeting announced (3) 348.
Hudson-Mohawk Section, symposium, award (3) 348; meeting and election (3) 349; symposium (6) 764.
Lehigh Valley Section, symposium announced (7) 854.
Michigan Section, announces conference (1) 23.
New England Section, Norton Award, election (2) 229; sets schedule (3) 348; hear Chabinsky (5) 662; career night, schedule (7) 855; guest night (8) 958; hears Baldoni (11) 1382; Syferth speaks (12) 1457.
New York Metropolitan Section, announces officers (3) 349.
Northern California Section, elects officers (1) 23; Fulrath awardees (9) 1095.
Northern Ohio Section, officer elections (4) 561; NASA symposium announced (7) 854; Posnick addresses (12) 1457.
Pittsburgh Section, Bleininger Award (2) 229; announces officers (3) 348; Navias honored (4) 561; Bleininger nominations (8) 958; Westinghouse tour (12) 1457.
San Diego Section, officers (7) 855.
St. Louis Section, symposium set, officers announced (2) 229; Planje-St. Louis Refractories Award (3) 348; symposium announced (10) 1220; seeks nominations (11) 1382.
Southeastern Section, schedule announced (1) 23; announces officers (4) 561; plans meeting (6) 764.
Southern California Section, sets schedule (4) 561; dates announced (7) 855; plans PCRM (8) 956.
Southwest Section, sets schedule (1) 23; spring meeting set (2) 229; meeting announced (9) 1094; meeting (12) 1457.
Trenton Section, names officers (5) 662.
Western New York Section, Mueller speaks (12) 1457.

Student Branches
Georgia Institute of Technology, elects officers (8) 958.
Ohio State University, officers announced (12) 1456.
Illinois, University of, award to (5) 662.
Iowa State University, cabinet (4) 561; Annual Meeting honors (7) 856.
Washington, University of, officers elected (6) 765.
Wilkes College, formed (1) 24.

Companies and Organizations

AFG Industries, Inc., new system (7) 850.
ANA, Ltd., stock purchased (1) 22.
ANDE Scientific, established (2) 227.
ASEA AB, license agreement (5) 660.
AT&T Bell Labs, Chin director (10) 1224.
AVX Corp., expansion announced (1) 22; chooses site (3) 345; new plant (4) 558; Renola promoted (7) 859; purchases MCC (8) 955.
Air Products & Chemicals, Inc., buys labs (11) 1379.
Alcan Aluminum Ltd., Webb to manager (4) 564.
Allied Mineral Products, Inc., Tabor to president (6) 768.
Alpha Industries, Inc., Trans-Tech Sub., Khan to direct (11) 1383.
Aluminum Co. of America, plant start-up (4) 558; Francis promoted (4) 564; Evert to general manager (9) 1096; Carbone to manager (10) 1224.
American Assn. of Engineering Societies Public Affairs Forum, technology literacy (5) 665; buys technology (12) 1454.
American Nepheline Corp., consolidated (2) 227.
American Olean Tile Co., promotes two (6) 767; promotes two (8) 960.
American Society for Testing of Materials, award to Insley (3) 352; award to Schneider (11) 1383.
American Technology Services Group, founded (9) 1092.
American Vacuum Society, announces conference (2) 228.
Anchor Glass Container Corp., merges (5) 661.
Anchor Hocking Corp., dismisses employees (5) 660.
Anglo-American Clays Corp., promotes Rogers (2) 233.
Applied Research Labs, independent (11) 1379.
Arco Metals Co., high purity aluminas (6) 761.
Armco Inc., Blum promoted (4) 563.
Armitage Shanks-Kilgore Inc., new name (7) 849.
Associated Minerals Consolidated, acquired (5) 661.
Augat, Inc., buys Micro Circuit (5) 660.
BMI, Inc., Kilgore to vp (8) 960.
Babcock & Wilcox Co., Lynch retires (8) 959; Varshneya to (10) 1223.
Baker Co., purchased (7) 849.
Ball Corp., Scholes retires (8) 959.
Banner Industries, Inc., buys Patterson (10) 1218.
Battelle, Columbus Labs, contract awarded (1) 16; Japanese visit (1) 21; Blanks to group leader (2) 233; funding study (2) 235; fiber optics (6) 762; contributes (7) 869.
Battelle, Pacific Northwest Labs, Chikalla named manager (2) 231.
Bechtel Petroleum, Inc., markets process (1) 21.
Belatron, Inc., start production (5) 660.
Berkeley Glasslab, Inc., to build plant (7) 849.
Bitramon, Inc., elects president (7) 849.
Brick Institute of America, Stout to board of directors (2) 233.
Brockway, Inc., closes plant (1) 21; purchases stock (1) 22; closes plant (12) 1454.
Broutman & Assoc., Firestone to manager (5) 664.
Brush Wellman, Inc., Holladay to manager (2) 232; reorganization (4) 558; commits (7) 849; joint venture (9) 1092; reclamation (10) 1218.
Bureau of Mines, assesses manganese resources (1) 16; awards funding (2) 223; funds institutes (2) 223; assesses mineral production (3) 341; minerals data (4) 445; report available (5) 658; research evaluated (6) 761.
C-E Refractories, ships equipment (4) 558.
CMW, Inc., license aggreement (12) 1455.
CTS Corp., grant to (10) 1218.
Cabot Crystals, Inc., partnership formed (3) 345.
Carborundum Co., names Kahl president (1) 26; tests materials (5) 661; boosts capacity (6) 761; sells Durafax (7) 850; new composite (10)1219.
Carborundum Electro Minerals Co., to Sohio (9) 1092.
Center for Advanced Materials, Berkeley, Panzarino heads study group (11) 1383.
Ceradyne, Inc., Carberry promoted (2) 233.
Ceramic Correspondence Institute, offers catalog (8) 956.
Ceramic Tile Marketing Federation, organized (2) 227.
Ceramicus/Windsor Canada, Ltd., takes over (9) 1092.
Cermalloy, Inc., Liang joins (2) 232.
Cermetek Microelectronics, Inc., contract to (4) 558.
CertainTeed Corp., closes plants (10) 1218.
Charles River Assoc., Blum joins (4) 563.
Cladan Technology Inc., bought (11) 1379.
Cleveland Twist Drill, Inc., coatings (4) 558.
Combustion Engineering, Inc., sells plant (12) 1454.
Commerce, U. S. Department of, revised codes (8) 958.
Congressional Budget Office, completes study (1) 16.
Congressional Office of Technology, assesses electronics industry (1) 16.
Coors China Co., Worrell to vp (4) 564.
Coors Porcelain Co., signs agreement (7) 849; acquires Royal Worcester Industrial Ceramics Ltd. (12) 1454.
Corning Engineering, Inc., aggreement made (1) 21.
Corning Glass Works, Inc., Alfred agreement (2) 230; plant finished (6) 761; China agreement (7) 850; sponsor (8) 965; adds capacity (10) 1218.
Council for Financial Aid to Education, corporate gifts (7) 857.
Crystal Systems, Inc., forms partnership (3) 345.
Cyprus Industrial Minerals Co., Holmes and Massari join (6) 768.
Cyrus Industrial Minerals Co., promotes Moebus (2) 233.
Daini Denden Kikaku, established (10) 1218.
Dart & Craft Inc., San Fernando Labs subisidiary, purchased (11) 1379.
Deutsch, Shea & Evans, market reports (8) 956.
Diamonite Products, Chakraverty joins (10) 1224.
Dickey Clay Pipe Manufacturing Co., promotion (6) 767; grant extended (9) 1092; Stoen manager (11) 1383.
Dow Chemical Co., food containers (6) 761.
Dow Corning Corp., Hauth joins (2) 231.
Drakenfeld, Kliphouse general manager (7) 860.
Du Pont, E. I. Nemours & Co., Inc., groundbreaking (2) 227; Conoco Sub. builds calciner (9) 1092; expands (10) 1218; Secaur, Bouchard to technical staff (10) 1223.
Duramic Products, Inc., expansion (1) 21.
ESK Corp., merges (1) 21.
Electric Power Research Institute, awards grant (1) 24.
Elkem Metals Corp., merges (1) 21.
Engelhard Corp., elects president (7) 860.
Engineering Manpower Commission, reports growth (6) 779.
Engineering Materials and Processes, Inc., Scheffer joins (8) 960.
Englehard Industries, expands (5) 660.
Environmental Protection Agency, awards contracts (2) 224.
FMR Grinding Wheel Corp., buys Ferro operation (2) 227.
Federation of Materials Societies, Schwartz to trustee (9) 1096.
Ferro Corp., sells grinding operations (2) 227; grinding wheels (3) 346; promotes two (3) 352; agreement (4) 558; acquires Zirconia Div. (5) 661; Ruderer to marketing manager (5) 664; Feldman to coordinator (6) 768; supports research (7) 850; Weddington promoted (7) 859; Lynham vp (7) 860; sells business (8) 955; expands (11) 1379; Lowrance promoted (11) 1384; divisions added (12) 1454.
Findlay Refractories Co., buys plant (12) 1454.
Foote Mineral Co., Watson to manager (6) 768; to convert plant (7) 849; joint lithium venture (9) 1093.
Foundation in Refractories Education, scholarships awarded (3) 348.
Franciscan Ceramics, Inc., closes plant (7) 850.

GTE Corp., Precision Materials Div. acquires Valeron (5) 660; Special Products Div. expands (12) 1454.
General Electric Ceramics, Inc., adds technical center (6) 763.
General Motors Corp., installs glass (8) 955.
General Signal Corp., sells tools (5) 660; Lindberg Div. award (8) 956.
Georgia Kaolin Co., Inc., , Inc., clay to China (2) 227; Goodman to senior sales rep. (5) 664.
Glass Packing Institute, recycling (11) 1380.
Gorham International, Inc., cutting tool forecast (7) 850.
Grace, W. R. & Co., forms unit (4) 558; expands (8) 955.
Green, A. P., Refractories Co., expands (7) 849; Lueking to manager (10) 1223.
Harbison-Walker Refractories, Sekeras appointed (2) 231.
Hecla Mining Co., acquires Kentucky-Tennessee Clay Co. (11) 1379.
Heraeus Cermalloy, appoints Newberry (5) 664; sponsors workshop (11) 1382.
Heraeus, W. C., GmbH, joint venture (9) 1092.
Heraeus-Amersil, plans facility (4) 558.
Hercules, Inc., suspends construction (1) 22; joint venture (5) 660.
Hi-Purity Materials, Inc., expansion (7) 850.
High Energy Corp., acquires capacitor line (12) 1454.
Huber Corp., J. M., promotes Harbeson (2) 233; promotes two (3) 352; promotes Marvin (3) 383.
Hughes Aircraft Co., facility completed (8) 955.
Hye Technology Assoc., formed (3) 352.
IBM Corp., awards (8) 959.
IIT Research Institute, Japanese visit (8) 955; contract to (11) 1380.
ITT Jennings, sells capacitor line (12) 1454.
InCon Inc., consolidates (3) 345.
Indusmin, Inc., created (2) 227.
Industrial Furnace Services, Inc., opens plant (12) 1455.
Industrial Materials Technology, Inc., vessel planned (8) 955.
Institute of Industrial Engineers, management survey (5) 664.
Insulator Seal, Inc., acquired (5) 660.
International Lead Zinc Research Organization, research support to Alfred (4) 561.
Japanese Fine Ceramics Assn., visits U.S. (3) 341.
Jena Glass Works, celebrates (12) 1455.
Johnson Matthey, Best to GM (5) 664.
Joseph Dixon Crucible Co., New Castle/Corundite Refractories Div., Washabaugh retires (11) 1383; Markell vp (11) 1384.
K.T.G. Glassworks Technology Inc., Roe to (7) 859.
Kaiser Aluminum & Chemical Corp., anticipates sale (11) 1379.
Kaiser Refractories, names Bozarth (10) 1224.
Kali-Chemia AG, expands production (10) 1218.
Kason Corp., moves (10) 1218.
KemaNord IndustrieKemi AB, marketing aggreement (3) 345.
Kentucky-Tennessee Clay Co., Irland joins (2) 232; acquired (11) 1379.
Kilgore Ceramics Corp., changes name (7) 849.
Kopp Glass, Inc., night vision glass (6) 761.
Kyocera International, promotions (2) 233; plans announced (10) 1219.
Lamar Industrial Plastics Co., acquired (12) 1454.
Lawson-United Feldspar and Mineral Co., consolidated (2) 227.
Lead Zinc Research Organization, Inc., project group (7) 850.
Libbey-Owens-Ford Co., sells plant (11) 1379; acquires Lamar (12) 1454.
Lingl Corp., Denison to president (10) 1223.
Little, A. D., Japan study (6) 778.
Litton Industries, Inc., unit sold (9) 1092.
Lockheed Missiles & Space Co., delivers tile (10) 1221.
Loomis Industries, buys tools (5) 660.
Los Alamos National Lab, IITRI contract (11) 1380.
Louisville Fire Brick Works, Cartee to manage (2) 233.
M&T Chemicals, Inc., Barkalow to supervisor (6) 768; Deckman manager (11) 1384.
MCI Communications Corp., fiber optics (7) 850.
MDC Vacuum Products Corp., acquires Insulator Seal (5) 660.
Magneco/Metrel, Inc., expands (5) 660.
Martin Marrietta Corp., contract to (1) 21; Sand Div. relocated (2) 227; doubles facility (8) 955; employees lease plant (9) 1092.
Marvin Moore & Co., agreement (4) 558.
Materials Research Corp., increases capacity (5) 660.
Materials Research Society, symposium announced (2) 228.
Materials South, Inc., Robinson heads (8) 960.
Mattheyprint Corp., moves (10) 1218.
McDonnell Douglas Corp., builds armor (2) 227.
Metz Metallurgical Corp., Benson to manager (2) 231.
Micro Abrasives Corp., expands (11) 1379.
Micro Circuit Tool & Die, purchased (5) 660.
Midland Glass Co., merges (5) 661.
Midwest Components, Inc., appoints (3) 352.
Monolithic Components Corp., purchased (8) 955.
Morganite Ceramic Fibres, Ltd., new facility (2) 228.
NGK Insulators, Ltd., rotor production (11) 1380.
National Academy of Engineering, research centers (4) 555; asbestos and electronics study (4) 556; urges policy (6) 778; Mehrabian elected (7) 859.
National Academy of Science, assesses materials research (3) 342.
National Aeronautics and Space Administration, celebrates anniversary (1) 16; breaks record (3) 341; announces crew (6) 7 6 2 .
National Bureau of Standards, phase equilibria program (8) 965; compiles data base (11) 1380.
National Defense Academy (Japan), Okazake to vp (8) 959.
National Research Council, assesses highway research (1) 16; Spriggs to director (4) 563; applications sought (11) 1380.
National Science Board, analyzes research links (2) 234; precollege science program (5) 665.
National Science Foundation, publishes outlook (2) 223; grant to Alfred (2) 230; R&D funding, university funding (3) 342 (3) 342; seeks nominations (9) 1092; microcontamination center (9) 1093.
Nilsen (USA) Inc., Yates to (10) 1223.
Nippon Kokan, license agreement (5) 660.
Nippondenso Co., plans center (12) 1454.
North American Refractories Co., Inc., Guise promoted (7) 859; Herron to manager (9) 1096.
Norton Co., names Panzarino, promotes Berelowitz (2) 232; names Trischuk; consolidates (4) 558; appoints Agarwal; adds center (8) 955.
Oak Ridge National Lab, collaborative research (6) 761.
Office of Technology Assessment, high tech paper, assesses nuclear power (4) 55.
Oglebay Norton Co., buys sand operation (11) 1380.
Olin Corp., Eppler joins (7) 859.
Omni Materials Technologies, Inc., established (9) 1096.
Ontario Research Foundation, Kuntze retires (10) 1223.
Optical Storage International, disk memory (9) 1092.
Orient Watch Co. (Japan), enters field (10) 1219.
Owens-Corning Fiberglas Corp., contributes (7) 869; building (8) 955.
Owens-Illinois, Inc., reorganizes (2) 227; Lanigan chairman (7) 859; sells sand operation (11) 1380.
PPG Industries, Inc., dedicates headquarters (6) 761; adds float line (7) 849; announces site (7) 849; expansion (9) 1092; technology sold (12) 1454; new management (11) 1384.
PQ Corp., expands technical services (12) 1454.
Pakco Industrial Ceramics, Inc., acquires Durafax (7) 850.
Patterson Industries, acquired (10) 1218.
Pemco Products, Hackler promoted (6) 767; Mobay Div. promotes two (10) 1224.
Pennsylvania Glass Sand Corp., expands (9) 1092.
Pittsburgh Corning Europe N.V., modernizes (7) 849.
Refractories Institute, participation sought (11) 1380.
Reynolds Metals Co., closes mine (4) 558; closes facility (11) 1379.
Roberts & Schaefer Co., signs agreement (7) 849.
Robertson, H. H., Co., buys plant (11) 1379.
SRI International, report (11) 1380.
Saint-Gobain, Compagnie de, Wenzel directs (2) 232.
Sauder Energy Systems, Inc., builds (11) 1379.
Semiconductor Products Co., formed (1) 21.
Smith, A. O., Corp., decentralizes (3) 345; plans center (9) 1092; Dolan appointed (10) 1224; new division opens (11) 1379.
Smithsonian Intitution, features ceramic design (3) 341.
Society of Glass Technology, meeting announced (3) 347; Busby honorary fellow (6) 768; Mohr fellow (11) 1384.
Sohio Chemical & Industrial Products Co., Hinton to vp (8) 959; new sector formed (9) 1092; Kelly to (11) 1383.
Southwest Research Institute, studies diesels (5) 661.
SpecTran Corp., Schultz to vp (9) 1096.
Sphinx, Koninklijke, to automate (6) 761.
Spinks Clay Co., builds silos (5) 660; Kohut to manager (6) 767.
Standard Oil Co. (Ohio), forms business (1) 21.
Stettner & Co., adds office (7) 849.
Steuben Glass, anniversary (8) 955.
Sumitomo Chemical Co., joint venture (5) 660.
Superior Graphite Co., markets powder (3) 345; Stewart joins (11) 1383.
Tam Ceramics, Inc., Kilpatrick president (6) 767; buys Cladan Technology Inc. (11) 1379; Rieger vp (11) 1384.
Tile Council of America, elects officers (5) 661.
Toledo Consulting Group, formed (3) 345.
Toshiba Corp., expands (10 1219.
U.S. Department of Energy, awards contract (1) 21.
Unimin Corp., expansion (2) 227.
Union Process, Inc., Becker to (7) 860.
Unique Kilns, Oberschmidt to sales manager (4) 563.
Valeron Corp., purchased (5) 660.
Varian Assoc., establishes plan (7) 849.
Verson Allsteel Press Co., closes plant (11) 1379.
Zenith Electronics (Ireland) Ltd., acquires plant (3) 346.
Zenith Radio Corp., changes name (7) 850; awarded, energy forcast (2) 223.

Meetings, Non-Society

Advanced Ceramics, lecture meeting on (4) 560.
Agglomeration, Fourth International Symposium on, announced (3) 346.
American Society for the Testing of Materials, D-30 committee meeting, announced (9) 1093.
Austceram '84, announced (1) 22.
Automotive Materials Conference, announced (1) 23.
Biomaterials, 11th Annual Meeting of the Society of, announced (10) 1220.
British Ceramic Society, call for papers (6) 762; meeting announced (2) 228.
Canadian Ceramic Society, Annual Convention of, call for papers (7) 853.
Carbon, International Conference on, announced (10) 1220.
Cement Congress, call for papers (7) 853.
Cement Microscopy, Seventh International Conference on, announced (10) 1220.
Cement and Concrete, International Symposium on, call for papers (7) 853.
Cement, Eighth International Conference on the Chemistry of, announced (7) 853.
Cement-Based Materials, Symposium on the Potential for Very High Strength, announced (2) 228.
Ceramic Assn. of the Philippines, meeting (5) 661.
Ceramic Components for Engines, First Symposium on, announced (3) 346.
Ceramic Society of Japan, Annual Meeting, announced (3) 346.
Ceramics Fair and Seminar, Third Annual, announced (5) 661.
Ceramics, 13th Conference on the Science of, announced (8) 956.
Characterization of Ceramics and Glasses, Second Conference on, announced (4) 558.
Chemical and Mineral Admixtures, Symposium on, announced (3) 346.
Clay Minerals, Symposium on, announced (2) 228.
Colloid and Surface Science, 58th Symposium on, announced (4) 58.
Composites & Advanced Ceramics, Annual Conference on, call for papers (7) 854.
Composites, Meeting on Process for Metal and Ceramic Matrix, announced (8) 956.
Decorating Seminar, announced (6) 763.
Education for the Ceramic Arts, 19th Annual Conference of the National Council on, announced (12) 1456.
Electrochemical Society, meeting announced, call for papers (10) 1220.
Electronic Components Conference, 35th, announced (12) 1456.
Ferrites, Fourth International Conference on, topics announced (9) 1093.
Ferrites, International Conference on, announced (1) 22.
Ferroelectrics, IEEE International Symposium on the Applications of, announced (9) 1094.
Fiber Optics, Exposition on, announced (8) 956.
Fine Particle Society, 16th Annual Meeting, announced (10) 1219.
Firing of Ceramics, International Conference on, announced (6) 763.
Fracture Mechanics of Ceramics, Fourth International Symposium on, announced (2) 228.
Gas Turbine, International Symposium and Exposition on, announced (9) 1093.
German Democratic Republic's Glass Engineers, 13th International Conference of, announced (8) 956.
Glass Manufacturing, Third Latin American Technical Symposium on, announced (10) 1220.
Glass Problems, 45th Conference on, announced (6) 763.
Glass and Glassmaking, the Physics and Chemistry of, meeting on, announced (12) 1455.
Glass, Annual Meeting of the International Commission on, report (12) 1460.
Glass, 14th International Congress on, announced (11) 1381.
Gordon Conference on Glass, announced (11) 1381.
Gordon Research Conference on Ceramics, announced (5) 661.
High Purity Materials and Science and Technology, Sixth International Symposium on, announced (7) 853.
Hot Isostatic Processing, Conference on the Expanding Role in the Manufacture of Engines, announced (2) 228.
Hybrid Microelectronics, International Society of, symposium announced (2) 228; workshop, announced (5) 661.
Hydrothermal Reactions, Second International Symposium on, announced (7) 854.
Interceramex '84, announced (8) 956.
Joining of Ceramics, Glass, and Metal, Second International Conference on, calls for papers (4) 560.
Kriedl Testimonial, announced (2) 228.
Lasers and Electro-Optics, International Congress on the Applications of, announced (5) 66 .
Lithium Battery Technology, Second Annual Seminar on, announced (9) 1094.
Magnetism and Magnetic Materials, 30th Annual Conference on, announced (5) 661.
Materials Research Society, symposia announced (5) 662.
Materials Technology and Process Industries Needs, Conference on Advances in, announced (7) 854.
Medical Imaging and Instrumentation, meeting on, announced (11) 1381.
Metallographic, International, Society, meeting announced (11) 1381.
Microelectronics, International Symposium on, announced (2) 228.
Microelectronics, Third International Conference on, announced (4) 560.
Molybdenum, Conference on the Physical Metallurgy and Technology of, and of Its Alloys, announced (8) 956.
Multiphase and Composite Ceramics, Tailoring of, meeting announced (10) 1220.
National Materials Policy, Eighth Biennial Conference on, announced (4) 560; report (11) 1387.
Nuclear Waste Management, Eighth International Symposium on the Scientific Basis for, announced (7) 853.
Optical Fiber Symposium, National Bureau of Standards, announced (6) 763.
Pennsylvania Ceramic Assn., 39th Annual Forum, announced (8) 956.
Porcelain Enamel Institute Technical Forum, 45th, announced (8) 956.
Production Technology Forum, announced (11) 1381.
Quartz Crystal, Sixth Conference on, announced (3) 346.
Rare Earth, International Conference on the Development and Applications of, announced (9) 1093.
Raw Materials for Advanced and Engineered Ceramics, conference on, announced (11) 1381.
Refractories, 27th International Colloquium on, announced (1) 22.
Refractories, 28th International Colloquium on, announced (9) 1094.
Refractories, Symposium on, announced (10) 1220.
Research & Development, Colloquium on, announced (2) 228.
SAMPE, 17th National Technical Conference, announced (10) 1219.
Selenium-Tellurium Symposium, Third International Symposium on, announced (4) 560.
Silicate Industry and Science, 14th Conference on, announced (11) 1381.
Silicates and Oxidic Compounds, Fourth Conference for Chemistry and Technology of, announced (4) 460.

Society for Metals, conferences announced (7) 854.
Society of Glass Decorators, 21st Annual Seminar, announced (9) 1093; elects officers (3) 346; calls for papers (3) 347.
South African Ceramic Society, 16th Annual Symposium, announced (1) 22.
Structural Ceramics, conference on, announced (9) 1094.
Surface Mount Technology, conferences on (1) 22.
Surface Mount and Reflow Technology, seminar on, announced (11) 1381.
Thermal Analysis Society, 14th Conference of the North American, announced (12) 1456.
Thermal Analysis, Eighth Annual Conference on, announced (5) 662.
Thermoanalysis Methods in Science and Practice, Symposium on, announced (2) 228.
Toughened Composites, symposium on, announced (11) 1381.
Transducers, Workshop on Micromachining and Micropackaging of, call for papers (7) 849.
Ultrastructure Processing of Ceramics, Glasses, and Composites, Second International Conference on, announced (12) 1456.
Vacuum Metallurgy, Conference on, announced (2) 228.
World Ceramic Conference, announced (11) 1281.
X-Ray Analysis, Denver Conference on Applications of, announced (6) 763.
Zirconia '86, announced (6) 763; topics announced (11) 1381.

Names

Abe, Hiroshi, Fulrath Award to (9) 1095.
Adams, Edward M., promoted (8) 960.
Agarwal, Anil K., supervisor (4) 563.
Allender, Jeffrey S., award to (1) 21.
Alliegro, Richard A., vp (12) 1458.
Amarakoon, Vasantha R. W., asst. prof. (1) 24.
Andrews, D. Burton, obituary (12) 1457.
Baldoni, J. Gary, speaks (11) 1381.
Banerjee, Subrata, fellow (3) 385.
Barkalow, Raymond W., to supervisor (6) 768.
Bates, J. Lambert, honored (3) 347; visits campus (7) 857.
Beaudoin, Armand J., director of sales and management (1) 25.
Becker, John, to Union Process (7) 860.
Benson, Craig M., to Metz (2) 231.
Berelowitz, Lawrence, director (2) 232.
Bernadzikowski, Thomas A., award to (1) 21.
Besmann, Theodore M., award to (6) 768.
Best, Gary W., to Johson Matthey (5) 664.
Billmeyer, Fred W., retires (12) 1458.
Blanks, John H., group leader (2) 233.
Blum, Seymour L., to Charles River Assoc. (4) 563.
Boland, Edward F., sales manager (12) 1458.
Bouchard, Robert J., to technical staff (10) 1223.
Bowen, H. Kent, Purdy Award to (3) 381; Sosman Lecturer (3) 383; heads program (10) 1227.
Bozarth, Dale, sales manager (10) 1224.
Bradley, Fennimore N., appointed (3) 352.
Bradley, Richard S., obituary (9) 1094.
Bradt, Richard C., trustee (3) 381; honored (3) 382; speaks in Japan (5) 662; installed (6) 776.
Breeze, Frank V., vice chairman (11) 1384.
Brindley, George W., obituary (1) 24.
Brissenden, James L., heads business (1) 21.
Brosius, John P., obituary (8) 958.
Brown, Colin C. obituary (4) 561.
Brownell, Robert L., obituary (3) 350.
Buchanan, Relva C., professor (12) 1456.
Buerfiend, John, plant manager (2) 233.
Burrell, J. Earl, retires (11) 1384.
Busby, T. S., honorary fellow (6) 768.
Carberry, John, director (2) 233.
Carbone, Thomas J., to manager (10) 1224.
Cartee, Michael D., manager (2) 233.
Chakraverty, Jyoti P., to Diamonite (10) 1224.
Chen, Yok, fellow (3) 385.
Chikalla, Thomas D., manager (2) 231.
Chin, Gilbert Y., director (10) 1224.
Clemens, Eugene C., obituary (10) 1220.
Coll, Edward G., Jr., presents honorary doctorate (7) 857.
Condrate, Robert A., to Royal Society (6) 767.
Cronin, David, senior engineer (2) 231.
Cross, Leslie E., Jeppson Medal to (3) 381.
Davis, Harry E., obituary (12) 1457.
Deckman, Bruce W., market manager (11) 1384.
Denison, Don E., vp (10) 1223.
Dillingham, Robert S., obituary (12) 1457.
Dodd, Charles M., obituary (5) 663.
Dolan, Thomas I., chairman and CEO (10) 1224.
Downie, Linda K., Scholes Scholarship to (12) 1456.
Duke, John J., obituary (12) 1457.
Elwood, John Y., obituary (6) 765.
Eppler, Richard A., vp (3) 381; installed (6) 774; to Olin (7) 859.
Evans, Anthony G., vp (3) 381; installed (6) 774.
Everts, James A., general manager (9) 1096.
Faber, Katherine T., award to (4) 563.
Feldman, Sidney J., coordinator (6) 768.
Ferber, Mattison K., to University of Illinois (12) 1456.
Finzer, Garrison F., fellow (3) 385.
Firestone, Ross F., accepts position (5) 664.
Fisher, Robert E., fellow (3) 385.
Fishkin, Henry W., president (3) 352.
Fleischner, Peter L., fellow (3) 386.
